PROFESSIONAL SUMMARY

Full-stack web developer with 2+ years of coding experience building and deploying production web applications using Python, Flask, JavaScript, PostgreSQL, and Bootstrap. Specialized in educational technology, AI-integrated platforms, real-time applications, and secure multi-role systems. 10+ live applications deployed and publicly accessible. Seeking freelance and contract opportunities in web development.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML5, CSS3, SQL

Backend: Flask, SQLAlchemy, Node.js, REST APIs, Socket.IO

Frontend: Bootstrap 5, React, Chart.js, Progressive Web Apps (PWA)

Databases: PostgreSQL, SQLite, MongoDB

AI & Payments: OpenAI API (GPT-4o-mini), Stripe Payments

Tools & Deploy: Git, GitHub, Render, Gunicorn, Cloudinary

Security: Bcrypt, CSRF protection, rate limiting, secure cookies

Other: ReportLab (PDF generation), QR code integration, Flask-Login

SELECTED PROJECTS (with live demos)

EduHub — AI-Powered Learning Management System

Live: <https://eduhub-lms-1.onrender.com>

Code: <https://github.com/guyodika6891-lgtm/eduhub-lms>

Multi-role LMS (admin/teacher/student) with course/lesson/quiz builder, AI tutor (OpenAI GPT-4o-mini), real-time class chat (Socket.IO), Chart.js analytics, gamification (points, badges, leaderboards), auto-generated PDF certificates with QR codes, Stripe payments, and a 4-theme system. Built with CSRF protection, rate limiting, secure cookies, audit logging, and CSP headers.

ClearHub — University Digital Clearance System

Live: <https://clearhub-8w1o.onrender.com>

Code: <https://github.com/guyodika6891-lgtm/clearhub>

Multi-role digital clearance platform with 16 departments (Library, Finance, Cafeteria, Hospital, Security, Registrar, etc.), sequential approval workflow, AI assistant (OpenAI), QR-code certificate verification, real-time notifications, Chart.js analytics with department heatmaps, CSV exports, email alerts, multi-language support (English · አማርኛ · Afaan Oromoo), Stripe payments, PWA offline mode, and 4 theme modes.

VideoHub — Full-Stack Video Platform

Live: <https://video-platform-mpcl.onrender.com/>

Code: <https://github.com/guyodika6891-lgtm/video-platform>

YouTube-style platform with cloud video uploads (Cloudinary), authentication, likes, comments, subscriptions, channel pages, watch history, watch later, categories, trending feed, dark mode, and an admin dashboard. Deployed with Gunicorn + PostgreSQL.

Job Board — Full-Stack Platform

Live: <https://job-board-113z.onrender.com>

Code: https://github.com/guyodika6891-lgtm/job_board

Dual-role job board (employer / job seeker) with resume uploads, email notifications (Flask-Mail), analytics dashboard (Chart.js), rich user profiles, and job alerts.

Chat App — Real-Time Messaging

Live: <https://chat-app-1-3s6i.onrender.com/>

Code: https://github.com/guyodika6891-lgtm/chat_app

Real-time chat with emoji picker, photo/video/voice messages, camera recording, online users, and sound notifications.

Online Examinations System

Live: https://onlineexam.kesug.com/online_exam_system

Code: <https://github.com/guyodika6891-lgtm/Online-Examination-system>

Secure exam platform with real-time proctoring, automated grading, and detailed analytics.

+ 6 more live projects (Blog App, Task Manager, URL Shortener,

Notes App, Expense Tracker, Quiz Master, SocialConnect)

EXPERIENCE

Software Developer — EdTech Solutions

2024 – 2025

- Developed educational software and learning platforms
- Integrated LMS features and content delivery systems
- Designed UX for learning tools
- Launched 3 platforms

Lecturer — Werabe University

2025 – Present

- Teach IT courses with focus on practical applications
- 200+ students annually
- Course development and curriculum design
- Student mentoring and academic advising
- Research supervision

Teaching Assistant — Werabe University

2024 – 2026

- Lab supervision and practical sessions (500+ lab hours)
- Grading and student feedback
- Tutorial sessions

EDUCATION

PhD in Computer Science (ongoing) — Werabe University

2025 – Present

Thesis: "Advancing Digital Education"

Research Grant Recipient

BSc in Information Technology — Werabe University

2020 – 2024

First Class Honors (GPA: 3.8 / 4.0)

Specialized in Educational Technology

CERTIFICATIONS

Python Certification — freeCodeCamp

Score: 98%
